

Buzz session...

- Each team will have a 10-minute buzz session (like buzzing bees and other insects)
- Answer the following:
 - Write at least 3 thoughts about the News Reports.
 - What are the factors that facilitated your project?
 - What are the factors that hindered/posed as challenges in your project?
- Write your answers on metacards. Keep in mind the metacard rules.
- Post the metacard on the board.

PRESENTATION OF CASE STUDIES

(Per Component of the CSC)

Objectives of the Presentation

- To share and listen to participants' experiences in implementing the CSC,
 - Community entitlement
 - Community scoring
 - Interface meeting
- To assess the viability of CSC as a tool in promoting SAc in Extractive Industry

Instructions

- Participants will be asked to share their experiences in implementing CSC
- There will be three sets of presentation, highlighting a CSC component/phase
- Ms. Baigal of Mongolia will present Mongolia's current initiatives in promoting transparency and accountability in EI
- Each country team will be asked to present their cases within 10-15 minutes
- Five minutes will be allotted for Q&A after each presentation
- Presentations will be guided by questions

COMMUNITY ENTITLEMENTS

Lessons learned in informing or educating communities of their rights and entitlements as provided by global and national standards.

1

- How were the indicators (for scoring) arrived at?
- What do your country policies/laws provide in terms of transparency of information, participation, and accountability?
- How did you use the EI Global Standards?
- Based on your experience what strategies have you found effective in informing/educating communities on EI entitlements?

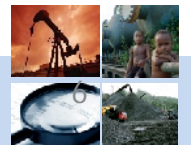

COMMUNITY ENTITLEMENTS

PRESENTERS:

1

- CRRT and CCIM (VOD) in Cambodia
 - Rights Education, Initializing Community Access to Information
- MaCEC (Marinduque Council for Environmental Concerns)
 - Policy Education and the Community's Right to Veto Mining Projects

GENERATING COMMUNITY SCORING

Lessons learned from generating and defining the INDICATORS by the COMMUNITY.

2

- Indicators may point to the very issues that are perceived by the community or citizens
 - to be important to them
 - would benefit from the EI operation when services are effectively provided by the regulating institutions and the extractive company

GENERATING COMMUNITY SCORING

PRESENTER:

Luta Hamutuk

- provides services and projects to Timor communities impacted by oil extraction
- focuses on the agreements between government and oil company to provide the 'local content', i.e.,
 - provision of projects for alternative livelihood
 - transfer of technology
 - infrastructure

2

INTERFACE MEETING

Bringing the results of the 3-cornered evaluation or audit to the table for constructive engagement, to build consensus on concrete measures to address the findings.

3

- Platform for constructive engagement and collaborative problem-solving
- Lessons learned, insights gained, suggestions for improving and sustaining engagement will be shared

GENERATING COMMUNITY SCORING

Bringing the results of the 3-cornered evaluation or audit to the table for constructive engagement, to build consensus on concrete measures to address the findings.

3

- How was the interaction between stakeholders group during the interface meeting? Were messages clearly communicated and/or discussed?
- What are the key agreements that the group arrived at during the interface meeting? How consensus was built between different stakeholders?
- Did the group come up with an action plan to outline next steps after the interface meeting? How can engagement be sustained after the CSC?

GENERATING COMMUNITY SCORING

Presenters:

PATTIRO and Bojo Negoro Institute

- Collaborated on the conduct of the CSC in Bojo Negoro in Western Java
- Will share the lessons in moderating the Interface Meeting
 - surfacing areas for improvement or reform and in discussing how the identified governance issues will be addressed by government and the PetroChina.
- Discuss with the local government and the Transparency Mechanism on the possible institutionalization of CSC

3

GENERATING COMMUNITY SCORING

Presenters:

Cordillera Volunteer Missioners (CVM)

- Engages the indigenous Kankanaey community that hosts Philex Mining Corporation's mining project
- Examines the implementation of the Social Development Management Program and Provision of IP Royalties

Affiliated Network for Social Accountability In East Asia and the Pacific
... connecting citizens to improve governance

MONGOLIA: THE EI SITUATION

Talking points...

- Description of responsible mining initiatives in Mongolia; how and where it works
- Description of Mongolia Human Development Fund and where it is now
- Reflections on the CSC case presentation:
 - What initiatives shared by the other presenters can be applicable to Mongolia
 - What initiatives in Mongolia does she think can be replicable/applicable in other countries in the region
